O'FERRALL'S PAST.

His Endorsement of Populism in

(Luray Weekly Union.) Just now, when Governor O'Ferrall has severely scored his critics through a lengthy article in the Richmond Times, in which he says that in 1892-'93, and 1894 he severely denounced Populism, it may be interesting to many who now differ with Governor O'Ferrall to know that in 1830 he endorsed a set of resolutions for the Farmers' Alliance of this county, which embodied far more of the Populist principles than the Chicago platform does principles than the Chicago platform does to-day. We herewith append five of the eleven resolutions presented by Mr. Rit-tenhouse on behalf of the Farmers' Alli-ance of this county, and also a copy of ance of this county, and also a copy of the endorsement written and signed by Mr. O'Ferrail, then a candidate for Congress from this (the Seventh) district on the Democratic ticket. Below are the resolutions, which we wish to remind the Colonel that he endorsed, but now denounces as being too Populistic for him:

2. Resolved. That we demand of our representatives that they put forth their best efforts to secure the free and unlimited coinage of silver.

5. Resolved. That we are in favor of the repeal of the national-bank act.

6. Resolved, That we favor the government control or ownership of radiroads and telegraph lines.

ment control or ownership of railroads and telegraph lines.

7. Resolved. That we demand that the election of United States senators be by a direct vote of the people.

10. Resolved, That we demand the enactment of some legislation that will create a flexible currency—the Sub-Treasury plan, or something better.

11. Resolved, That we cannot support for office any candidate who will not piedse himself to the support of these resolutions and the platform of the State and National Farmers' Alliance and Industrial Union.

Adopted by Page County Alliance at the October meeting, in 1859.

the October meeting, in 1850. O'Ferrall's endorsement:

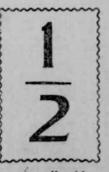

O'Ferrali's endorsement:
I endorse the resolutions recently submitted to me by Mr. Rittenhouse on behalf of the Page County Alliance. They are sound in principle and perfectly consistent with my political record. The Alliance is authorized to publish this endorsement, if it deems proper.

(Signed) CHA'S. T. O'FERRALL.

The above is a true copy of the resolu-ons and endorsement, both of which are led with the papers of Page County Alliance.
Any one desiring to do so can use them as they choose to offset the bold statements made by Colonel O'Ferrall that he has "always denounced Populism." W. E. GRAYSON,
Late Secretary Page County Alliance.

THE CATHOLIC UNIVERSITY.

Deprecation of Talk About "Parties" in its Management. WASHINGTON, October 22.—The third and final session of the Board of Directors of the Catholic University of America this morning was very brief, and the only business transacted was that of changing the annual meeting-day from the Wednes-day after Easter, which in practice had been found generally inconvenient, to the second Wednesday of October, in order to coincide with the annual meeting of

Archbishops.
The board also issued the following statement, before adjourning: "The board wishes it to be understood by the public that there are absolutely no factions or sectional differences amongst the members. The election of the candidates for the real section of the candidates for the real section. the members. The election of the candidates for the rectorship was unanimous. To speak of the triumph of this or that party, of conservatism er liberalism, nationalism or Americanism, is to misrepresent the whole situation. All the members of the board are equally American in spirit. They have but one thought, and that is the welfare of the University, and its steady progress toward the highest Catholic education."

(Lynchburg News.)
There is also to be a guard of three sound-money Democrats for every polling-place. When a man approaches the polis he will be asked whom he intends to vote for. After he leaves the voting booth he will be asked to sign an affidavit that he has carried out that intention. It is aswill be asked to sign an affidavit that he has carried out that intention. It is assumed that every man who has voted for McKinley will be willing to sign an affidavit to that effect, and these affidavits will be submitted to the State Board that canvasses the voters. If the returns do not correspond with the affidavits, the Sound-Money Committee will allege fraut and demand corrections. If that is denied they will appeal to the United States courts, and ask for an injunction restraining the Governor from issuing certificates to electors who are shown to have been to electors who are shown to have been fraudulently elected. Both the Governor and the Secretary of State will recognize and obey such an injunction, and the electoral vote of Virginia will not be sent

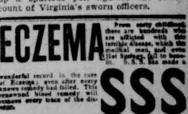

to Congress.—Extract from a letter of W-E. Curtis's in the Chicago Record. The foregoing dispatch to a Chicago paper, intended to encourage the belief that Virginia will cast her electoral vote for William McKinley, discloses a plan of lawless evasion and criminal desperation

der the supervision of sworn officers of the State; the other under the esplonage of hired spotters. And it is gravely esof hired spotters. And it is gavely served that if the poil returned by the sworn election officers of this Commonwealth does not conform to the partisan poil taken by the spies set over them by the McKinley Aid Society, the Governous of Virginia will reject the official count of the election and certify the poil made to the release.

by the spies!

by the spies!

There is the programme in its nakedness; a hideous travesty of decency and
fairness—a palpable intrigue for either
stealing the electoral vote of Virginia for
McKinley or so beclouding Bryan's title
to it as to make the presidency depend
upon another such infamous decision as
that which deprived Mr. Tilden of the
soat to which the people had elected him!
But, thank God, Virginia is not like
helpless Louisiana was! This Commonwealth is not beset by Federal bayonets. helpless Louisiana was: This Commonwealth is not beset by Federal bayonets. We do not have to countenance such a crime as that proposed in order to get release from the death-grip of ne_rodomination. And woe betide the men who domination. And we be the last the sovereign will of the people and to set up a spurious poll against the lawful
